

This Form 99 is being filed in response to the FEC letter dated August 25, 2006 asking for clarification of items reported on the Louisiana Reform PAC (C00409631) July Quarterly Report (4/01/06 - 6/30/06).

Regarding the expenditures for "8 U.S. Open tickets from Verizon," "Catering charges for U.S. Open champions," "Fee for 2006 Champions Table at U.S. Ope," "Fundraising: Reception expense," "Hotel rooms for contributors attending U," "Thank You Dinner for Contributorts who at," and "Two tickets for daily package in Champio", each expenditure was related to PAC fundraising activities. No specific federal candidates were supported during any of the fundraising activities related to the expenditures in question.

Regarding the limited amount of administrative expenses, the Louisiana Reform PAC is a very small organization that relies heavily on volunteers. All of the administrative expenditures incurred during the period covered by the July reporting period were included in the report. The PAC does not have a separate office and therefore does not incur any rent or utilities. There are currently no employees of the PAC. Any services provided to the PAC that are not performed by volunteers, are provided by independent contractors.

Regarding the provision of goods and services, there were no in-kind contributions of goods or services to the PAC during the July reporting period.

Respectfully submitted on September 25, 2006.
